### Introduction to ENABLE MultiZymes

This product mainly helps break down the protein, sugar, and small-molecule nutrients by supplementing respective digestive enzymes so that the gastrointestinal tract can effectively absorb nutrients. In addition, the beer yeast and the nutritional elements in the red barley powder contained in the product also supplements the trace elements that are lacking because of an unbalanced diet to accordingly help with digestion, boost appetite, optimize the intestinal flora, facilitate bowel movement, regulate allergic body composition, and increase immunity and ultimately enhance quality of life.

### Features and Purposes of ENABLE MultiZymes

1. Helps with digestion and boosts appetite.
2. Optimizes intestinal flora and helps with bowel movement.
3. Regulates allergic body composition and increases immunity.

### Advice on usage

Indication: This product can be taken by anyone wishing to stay healthy on a daily basis. The advised daily dose is 2 capsules in the morning and in the evening, respectively, that is, 4 capsules a day for general adults. Do not take more than 10 capsules a day.

### Precautions

1. Avoid use in pregnant and lactating women.
2. Avoid use in children under the age of 6.
3. Keep in a place away from direct exposure to sunlight and high temperatures or humidity during storage.
4. This food-grade health food mainly consists of various types of concentrated or fermented dietary nutrients instead of “uncommon” high-purity chemical therapeutic

drug that is obtained through a chemical process. Therefore, products of the Company, when used at a restricted dose, will not interact with medicine or generate unforeseeable toxicities. Except for grapefruits that contain naringin and other special ingredients to likely result in metabolism disorders and will be additionally noted and reminded of, all the others may be used with assurance as advised and instructed.
